

Impact extrusion press for aluminum collapsible tubes

HERLAN - SP1

Information

Machine no.:	3200-T1
Make:	HERLAN
Type:	SP1
Category:	machines for the manufacturing of collapsible aluminium tubes
Year / Condition:	1978/Gebraucht
Control unit:	
Country of origin:	Germany
Freight basis:	ex warehouse
Item location:	Malsch
Delivery time:	at request/ t.b.a.
Link to website:	https://industrie-kontor.com/en/detailview/3200-t1

Details

power:	kW
operation voltage:	380 V
frequency:	50 Hz
dimensions:	mm
weigh:	kg

Description

HERLAN SP1 EXTRUSION PRESS T1103M

Technical Data

Nominal power: 42 Mp

Stroke length: 210 mm

Diameter: 19 mm max.

Impact extruded length: 150 mm max. (depending on wall thickness)

Number of strokes: 120 per minute

Machine is equipped with:

- automatic slug assorting unit with infeed channel and gripper feed
- continuously controlled take-off unit with springy stripper frame
- pneumatic Ortlinghaus clutch with drive fly wheel and break
- automatic central lubrication
- gear wheels in oil bath
- drive motor with control gear for a infinitely variable adjustment of the number of press strokes in determined limits
- wood bar outfeed conveyor

General condition:

- mechanics completely checked and partly overhauled, e.g. with overhauled slide bars, replacement of the central lubrication, motor drive and the pneumatics
- electrical installation, PLC including operating panel as well as a new switch cabinet must be added (can be ordered at additional cost)
- machine suitable for an in-line operation

mechanically new overhauled, no electrics, with Ortlinghaus clutch

ALL PARAMETERS ARE WITHOUT ENGAGEMENT FROM OUR SIDE
